

WORKPLACE WELLNESS

QNET Presents:

The Art & Science of Workplace Wellness Evaluations

Friday, June 3 - 11:30 a.m. to 1:30 p.m.

As an employer, are you challenged by:

- A generation of **experienced and talented staff** on the verge of retirement?
- Competing needs and stresses of work and home experienced by the '**sandwich generation**'?
- New expectations from the **emerging workforce**?

The best barometers of the health of your organization, department or company are the perceptions of your employees and managers. Successful organizations have learned to identify both areas of strength and areas for improvement through research.

Join us for this luncheon presentation addressing many of the questions asked by managers planning to undertake employee-based research. Gather advice and learn from the experience of two facilitators with very different perspectives.

Presenters:

Janice Gair, Director of Human Resources and Administration, International Institute for Sustainable Development (IISD) will share her experience as a human resource professional that has planned for, and participated in, a series of employee research studies.

Gerry Kaplan, MSW, President and CEO of Kaplan & Associates and The Knowledge Managers Inc. will share his experience based on 17 years in the research and evaluation field.

REGISTRATION FORM: Fax to (204) 949-4990 or register online at www.qnet.mb.ca
